

## LAW STUDENTS

### *Jump Start Your Career*

It takes talent, tenacity, and a thirst for knowledge to become an exceptional lawyer. Lewis Roca can help you develop all three of these traits. As a summer associate or legal intern, you'll benefit from a wide range of mentoring, networking, and learning opportunities that will lay the groundwork for a successful career.

#### Summer Associates

Because we hope to build lasting relationships, great effort goes into planning programs that enable you to get to know us – and vice versa.

#### MENTORS AND READERS

Each summer associate has both a mentor and a reader. The mentor's role is to assist with your integration into the firm, including introductions to lawyers through lunches and social activities, as well as to answer questions and offer support when you need it. Your reader will review your written projects and provide constructive feedback.

#### WORK ASSIGNMENTS

You will have the opportunity to collaborate with several lawyers on substantive projects during your time at the firm. Our goal is to offer intellectually stimulating work that develops your writing, analytical, and advocacy skills while helping you get to know partners and associates who are deeply invested in your success.

## PROFESSIONAL DEVELOPMENT

All summer associates attend an introductory orientation followed by the firm's Summer Associate Training Academy (SATA), a weeklong program that takes place at our Phoenix office. Led by two of our lawyers, SATA includes a practice writing assignment with lawyer feedback as well as presentations on practice groups, business development, professional development, and other relevant topics.

We also encourage you to participate in a variety of workshops, lunchtime programs, and practice group presentations during your time at the firm.

Equally important, you will be invited to join our lawyers at client meetings, closings, negotiating sessions, and court appearances, which provide insight into our practices and give you a deeper understanding of life at Lewis Roca.

## TIME TO RELAX

We believe that strong personal relationships are the bedrock of a successful legal practice so there will be many opportunities to get to know us outside the office, from casual barbecues to cooking classes, baseball games, and weekend getaways, COVID safety guidelines permitting.

In addition to scheduled events, we encourage summer associates and lawyers to get together informally. Many of our summer associates develop friendships and professional relationships that continue throughout their careers.

## DIVERSITY INTERNSHIP OPPORTUNITIES

As part of Lewis Roca's commitment to strengthening our practice by attracting a broad range of voices and perspectives, we support programs designed to increase the diversity of the bar and the communities in which we practice. These include:

**Denver:** The Michael D. Nosler Scholarship honors a previous managing partner who demonstrated an unwavering commitment to diversity in the legal profession. It offers a talented, second-year law student \$10,000 towards their law school tuition upon completion of a paid, 12-week internship during the fall semester. In addition to financial assistance, the scholarship program provides the recipient with a learning experience that will develop and enhance their legal writing skills, and exposure to the private law firm environment and the real-world practice of law.

The program is competitive; one recipient is selected each year from either the University of Denver Sturm College of Law or the University of Colorado Law School.
